INTERNATIONAL SYMPOSIUM
II EDITION

ROME
5TH-6TH NOVEMBER 2026

Dear Colleagues,

following the success of our inaugural "All Around Pelvic Floor Anatomy" symposium held in April 2024, it is with great pleasure that we announce the second edition "ALL AROUND PELVIC FLOOR SURGERY - INTERNATIONAL SYMPOSIUM" which will take place on November 5th-6th in Rome.

Following the positive feedback and engagement from the 2024 event, we have expanded our focus to provide a comprehensive exploration of surgical techniques, innovations, and emerging technologies in pelvic floor surgery. This symposium brings together leading international experts and pioneers in the field to share their expertise, surgical approaches, and latest technological advancements.

The program will unite an exceptional community of professionals committed to advancing surgical excellence in pelvic floor disorders, featuring state-of-the-art demonstrations, innovative techniques, and cutting-edge technologies that are transforming patient care.

Key highlights of the symposium include:

- In-depth presentations on the latest surgical techniques and technological innovations in pelvic floor surgery.
- Live Surgery sessions - a cornerstone of the symposium - performed by expert surgeons demonstrating different surgical approaches with detailed anatomical perspectives, real-time commentary, and interactive Q&A sessions.
- Interactive sessions led by renowned international guests sharing breakthrough methodologies, clinical outcomes, and pearls of surgical wisdom.
- Comprehensive panel discussions exploring controversies, complications management, and future directions in pelvic floor surgery.

Further details, including the complete agenda, distinguished faculty, registration information, and accommodation options, will be shared with you in the coming weeks. In the meantime, please feel free to contact the organizing committee office at info@eludiaevents.it

08:30 Course Registration
09:00 Welcome and Introduction

SESSION 1 PELVIC FLOOR SURGICAL ANATOMY: FROM BENCH TO PRACTICE

09:15 Anatomy First: Building the Foundation for Pelvic Floor Surgery
09:30 Imaging-Based Insights into Pelvic Floor Surgical Anatomy
09:45 From Genetics to Genomics: Expanding the Perspective
10:00 Pelvic Floor: do we understand the physiology?
10:15 The Immune Response in Pelvic Floor Biology and Symptomatology
10:30 **DISCUSSION**

10:50 **COFFEE BREAK**

SESSION 2 PELVIC ORGAN PROLAPSE SURGERY: VAGINAL APPROACHES IN THE MODERN ERA—WHERE EVIDENCE MEETS INNOVATION

11:20 Apical Vaginal Reconstruction: Insights and Innovation in Level I Repair
11:35 Vaginal Reconstruction of Level II Support: Current Standards and Approaches
11:50 Reinventing Level III Vaginal Repair: integrating the Perineal Complex
12:05 Bridging Vaginal and Laparoscopic Surgery: v-NOTES as a Hybrid Approach for Minimally Invasive Pelvic Floor Surgery
12:20 KEYNOTE LECTURE: vaginal surgery and evidence-based strategies to make native tissue repairs successful:
12:40 **DISCUSSION**

13:00 LUNCH

14:00-16:00 SESSION 3 LIVE SURGERY: VAGINAL PROCEDURES

16:00 KEYNOTE LECTURE

SESSION 4 CAN GENERATION Z LEARN VAGINAL SURGERY? TEACHING, EDUCATION, AND FEASIBILITY

16:30 Vaginal Surgery and Young Surgeons... what is important?
16:45 Teaching Vaginal Procedures: Methods and Best Practices
17:00 Training Models: Evidence and Expert Opinion
17:15 Training Models: The Young Surgeons' View

SESSION 5 ROUNDTABLE ON VAGINAL SURGERY EDUCATIONAL PROGRAMS: A PILOT INITIATIVE OF THE LAZIO REGIONAL EDUCATIONAL NETWORK

17:30 The Residents' Perspective: Challenges and Critical Issues
17:35 The Program Directors' Insights
17:40 Proposals from Training Hospitals
17:45 **DEBATE**
18:15 **CONCLUSIONS**

SESSION 6 REDEFINING PROLAPSE REPAIR WITH ROBOTICS

- 08:30** Robotic-Assisted Reconstruction of the Pelvic Floor: From Anatomy to Functional Results
08:45 Innovations in Robotic Surgery for Pelvic Floor Disorders: Multidisciplinary Approaches and Clinical Evidence
09:00 Emerging Robotic Platforms for Pelvic Floor Surgery: Architecture, Instrumentation, and Digital Integration
09:15 Robotic Teleproctoring in Pelvic Floor Surgery: A New Era of Teaching
09:30 Robotics in Surgery: Balancing Innovation with Economic and Environmental Responsibility
09:45 **DISCUSSION**

10:00–12:00 SESSION 7 LIVE SURGERY: ROBOTIC PROCEDURES

SESSION 8 THE FUTURE OF PROLAPSE SURGERY: CAN LAPAROSCOPY KEEP UP?

- 12:00** Sacrocolpopexy: one size fits all?
12:15 Beyond Mesh: Native Tissue Solutions in Laparoscopic Pelvic Floor Surgery
12:30 Hybrid prolapse repair: integrating native tissue and prosthetic techniques
12:45 Laparoscopic lateral colposuspension: a game changer or shortcut?
13:00 **DISCUSSION**

13:15 **LUNCH**

14:00 KEYNOTE LECTURE "Pain After Cure: The Challenge of Chronic Pelvic Pain in Pelvic Floor Reconstruction"

14:30-16:30 **SESSION 9 LIVE SURGERY: LPS PROCEDURES**

16:30-17:30 **SESSION 10 PODCAST & "SURGICAL DIALOGUES: LEARNING THROUGH GENERATIONS"**

18:00 **CONCLUSION**

INTERNATIONAL FACULTY

Michel Cosson FRANCE
John O. Delancey USA
Laurent de Landsheere BELGIUM
Fernanda Pipitone BRAZIL
Jean Paul Roovers NETHERLANDS
Alessandro Ferdinando Ruffolo FRANCE
Payton Schmidt USA
Carolyn W. Swenson USA
Michel Wyndaele NETHERLANDS

USEFUL INFORMATION

REGISTRATION

The registration request can be made by [CLICKING HERE](#)

Congress registration fee:

- EARLY REGISTRATION (till August 31st): € 400 +VAT
- LATE REGISTRATION (after August 31st): € 500 +VAT
- REDUCED FEE for TRAINEES, MIDWIVES, NURSES, PHYSIOTHERAPISTS: € 250 +VAT

The official language of the Congress is English.

VENUE

Auditorium Antonianum – Viale Manzoni 1, Rome – ITALY

CME CREDITS

CME accreditation has been requested for the following categories: Midwives, Nurses, Physiotherapists, specialists in Gynecology, Urology and Coloproctology.
